Program

We received an update on the project to construct sound deadening walls at the Haven of Hope in Little Chute. They have received an estimate of \$1200 for material and 80 hours of labor. We are considering paying for the material and building the walls as a spring project. Ed will be in charge of following up on the project and applying for a district fund match.

The last half of the program was spent on our foundation spending plan for 2012. We have about \$80,000 in the foundation and can spend about 5% of that amount each year. We decided that we would spend \$4000 this year.

There are three different levels that the money can be spent. Those are at the national, district and local level. President Dave identified several programs with which we have been involved and made financial contributions.

After several discussions we decided on the following to be our foundation contributions for 2012:

- NAMI - \$1000
- Power Flour - \$1000
- Haven of Hope - \$1000
- Student Scholarships - \$1000

Minh, Jim and Fred volunteered to be on the scholarship team.
